Rally against apathy draws small crowd

OKLAHOMA CITY (AP) — Organizers had high hopes for a rally Saturday to battle apathy in civic life, but the event drew only a fraction of the anticipated crowd.

Dennis Payne, a spokesman for the Coalition of Civic Leadership, said he was hoping for about 25,000 participants to hear four hours of entertainment, prayer, songs and speeches.

Instead, the rally drew about 500 people, many of whom were security guards, police officials, politicians, speakers and campaign workers handing out pamphlets.

"We underestimated that we had a tragic incident, and sometimes those types of incidents keep people from large assemblies," Payne said, referring to the bombing that rocked the Olympic Games in Atlanta early Saturday, killing two people and injuring at least 110 others.

Another reason for the low turnout, Payne said, was just what the group is trying to battle — apathy.

Still, he was optimistic.

"This is a beginning, not an end," Payne said.

The rally began with a march from Knight Center Library to the Capitol where a few blocks south, Payne said he was expecting groups from Baltimore, Idaho, Lawton, Enid and Muskogee.

Payne said organizers started planning the rally in April so "voters, nurses and nurses can participate."

According to repeated nationwide surveys,

More Doctors Smoke CAMELS than any other cigarette!

Doctors in every branch of medicine were asked, "What cigarette do you smoke?" The brand named most was Camel!

You'll enjoy Camels for the same reasons so many doctors enjoy them. Camels have cool, cool mildness, pack after pack, and a flavor unmatched by any other cigarette.

Make this sensible test. Smoke only Camels for 30 days and see how well Camels please your taste, how well they suit your throat as your steady smoke. You'll see how enjoyable a cigarette can be!

THE DOCTORS' CHOICE IS AMERICA'S CHOICE!

For 30 days, test Camels in your "T-Zone" (T for Throat, T for Taste).
